chompunuch.autt@gmail.com | +66 967760894 | Bangkok, Thailand | [Portfolio](#)

SUMMARY

UX/UI Designer with a Computer Engineering background, focused on user-centered research, high-fidelity prototyping, and designing complex digital systems. Experienced in taking projects from problem framing and wireframing through usability testing and frontend implementation with React/Next.js.

TECHNICAL SKILLS

- Design Tools: Figma, Adobe Illustrator, Adobe Photoshop, Procreate
- Design Process: UX Research, Wireframing, Prototyping, Usability Testing (UAT)
- Frontend Development: React, Next.js, HTML, CSS, JavaScript
- Engineering & Tools: Unreal Engine 5 (Blueprints), Git/GitHub

PROFESSIONAL EXPERIENCE

Teaching Assistant (Software Engineering) | Department of Computer Engineering, KMUTT Aug 2025 – Dec 2025

- Mentored 60+ students and standardized UML/SRS documentation, improving project consistency and quality across teams.
- Reviewed UI/UX deliverables against usability and visual hierarchy principles, giving structured design feedback each sprint.

Game Development Intern | Media Technology and Applied Arts, KMUTT June 2025 – July 2025

- Applied user-centered design principles within a 3D environment, shaping visual hierarchy for power-ups and tuning character movement to keep interactions intuitive.
- Built core mechanics for a 3D endless runner in Unreal Engine 5 Blueprints, including procedural level generation and item systems.
- Engineered a persistent high-score system with progressive difficulty scaling to sustain player engagement.

KEY PROJECTS

Xenior+ (Senior Project) | UX/UI Designer & Frontend Developer August 2025 – May 2026

- Led the UX/UI design of key workflows in Xenior+, a department-wide academic workflow system, from problem framing and prototyping through UAT validation with faculty stakeholders.
- Ran UAT sessions with faculty across multiple iterations, using structured feedback to refine flows before final sign-off.
- Engineered a fully responsive assessment interface in React/Next.js, rapidly upskilling from backend languages to ship a production-ready, cross-device system.
- Validated core functionality through structured testing and contributed to a 4.14× improvement in search performance.

Skinmatch & Movie Theater Platforms (Academic Projects) | UX/UI Designer Sep 2024

- Led requirement elicitation with stakeholders and translated findings into high-fidelity, interactive Figma prototypes for e-commerce and database-driven platforms.
- Applied visual hierarchy and user-flow mapping to simplify multi-step journeys, improving task clarity in usability walkthroughs.

EDUCATION

King Mongkut's University of Technology Thonburi Aug 2022 – May 2026

Bachelor of Computer Engineering | GPAX: 3.01

- Scholarship: Chuan Ratanarak Foundation Recipient
- Languages: Thai (Native), English (TOEIC score: 670)

LEADERSHIP & ACTIVITIES

Student Organization of KMUTT Residential College (SMO RC)

- Event President & Lead Organizer: Directed end-to-end design and execution for the Khao Son Walk Rally and a Farewell Party for 120+ attendees, managing everything from procurement to onsite logistics.
